

## 1.1 Join the conference via "support.schuerholz-group.com" (Windows-Client)

There are several ways to join a Schürholz web conference. This guide explains how to join the web conference with the Windows Client via the website "support.schuerholz-group.com" with an existing session number.

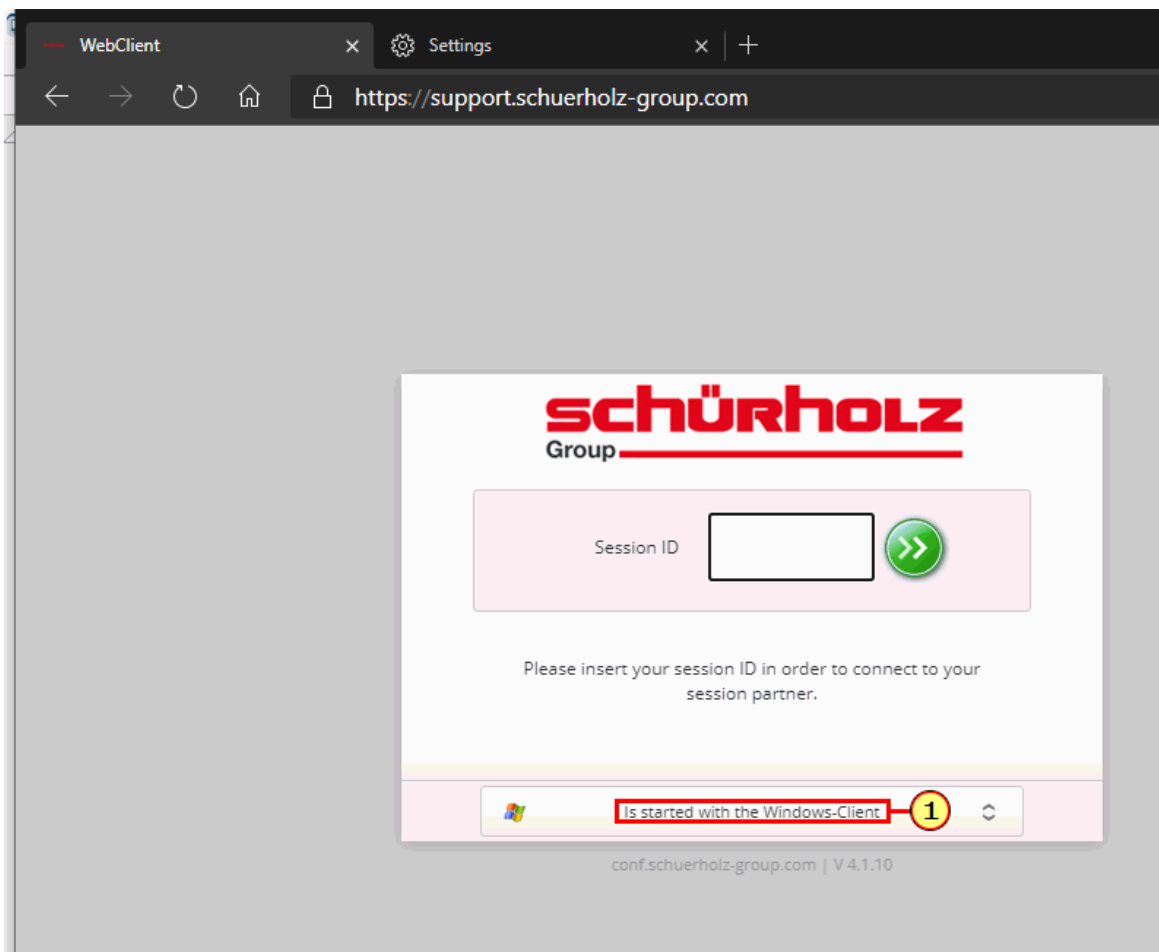

You can manually enter the link to the above mentioned website. This link can also be found on our website (www.schuerholz-group.com) under "Contact - web conference".

### 1.1.1 Open the website

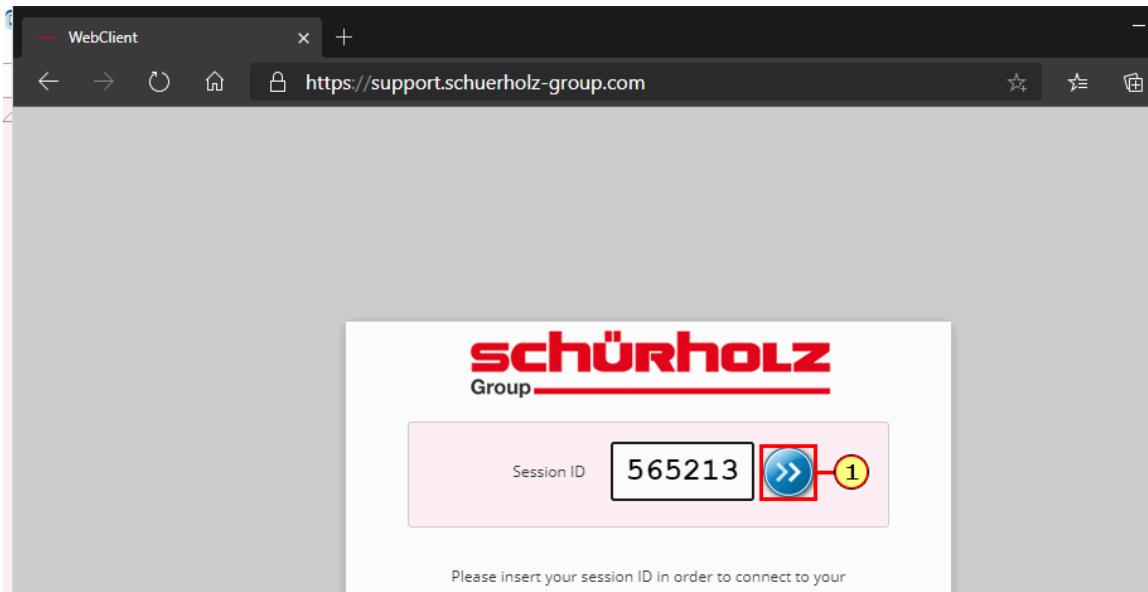

(1) Enter "support.schuerholz-group.com" in the address line.

## 1.1.2 Selection of the connection methods

(1) Click the button to switch between the connection methods. Select "Is started with the Windows-Client".

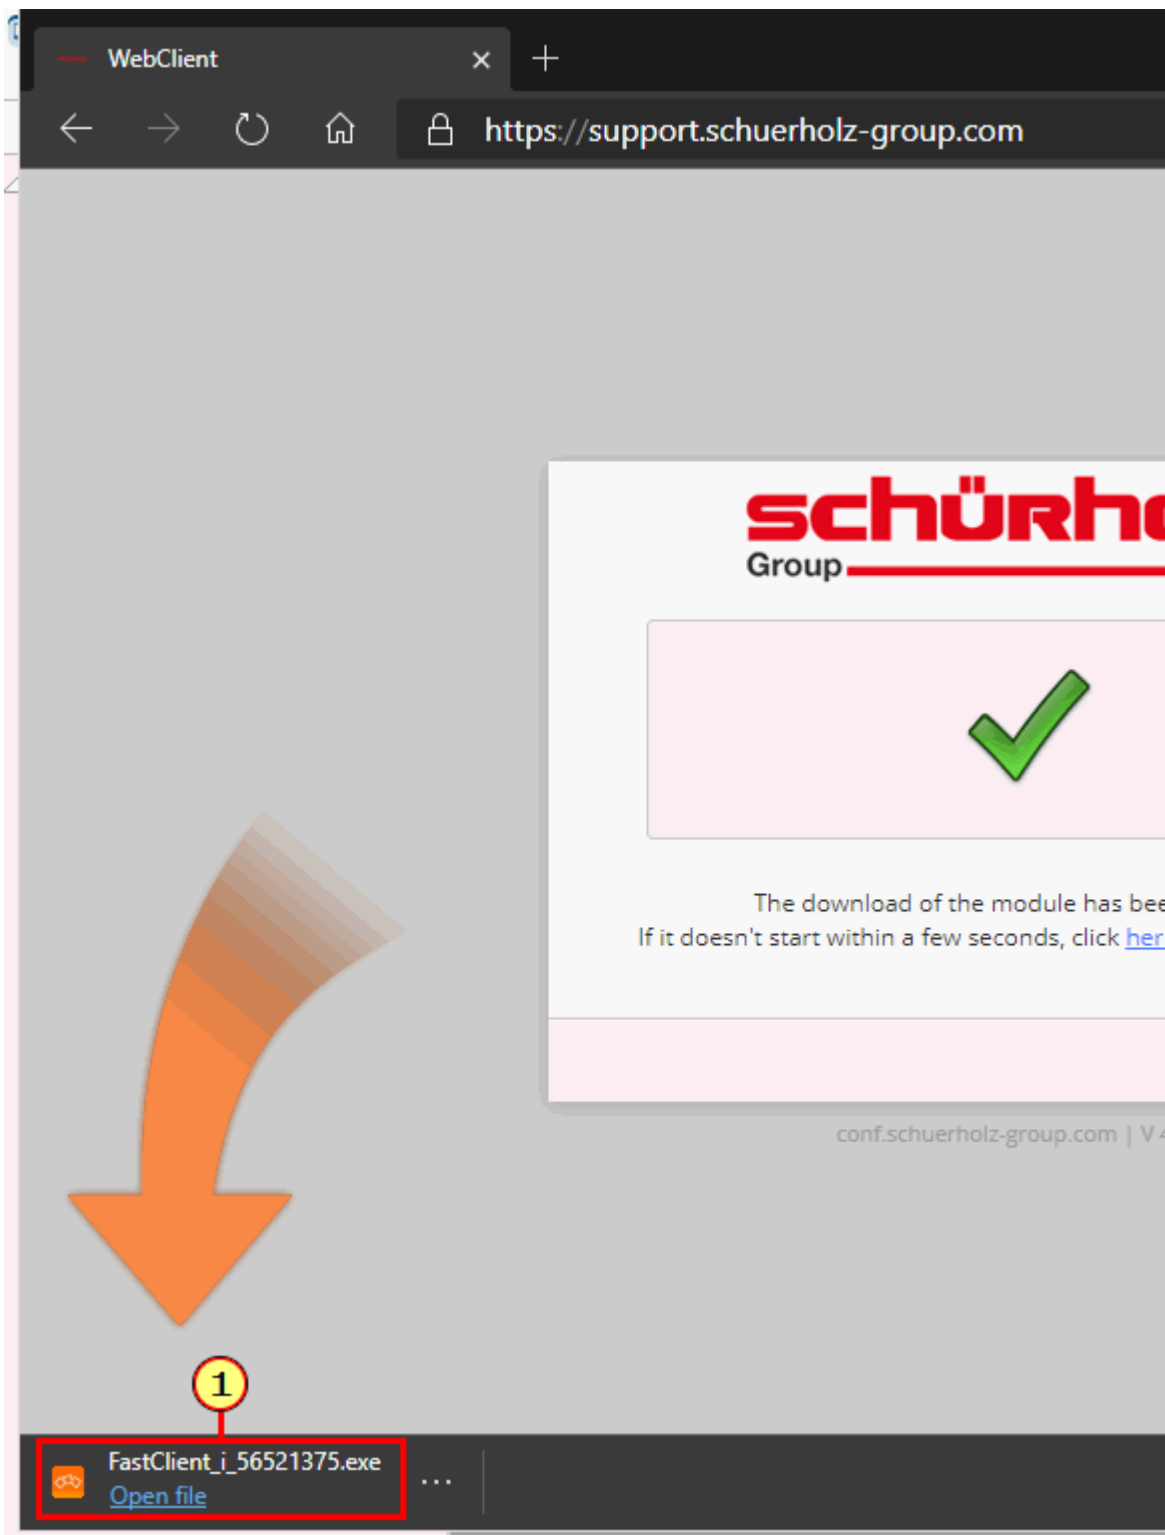

### 1.1.3 Connect to web conference

Enter the session number in the corresponding field.

(1) After you have entered the session number, you can join the web conference via the button.

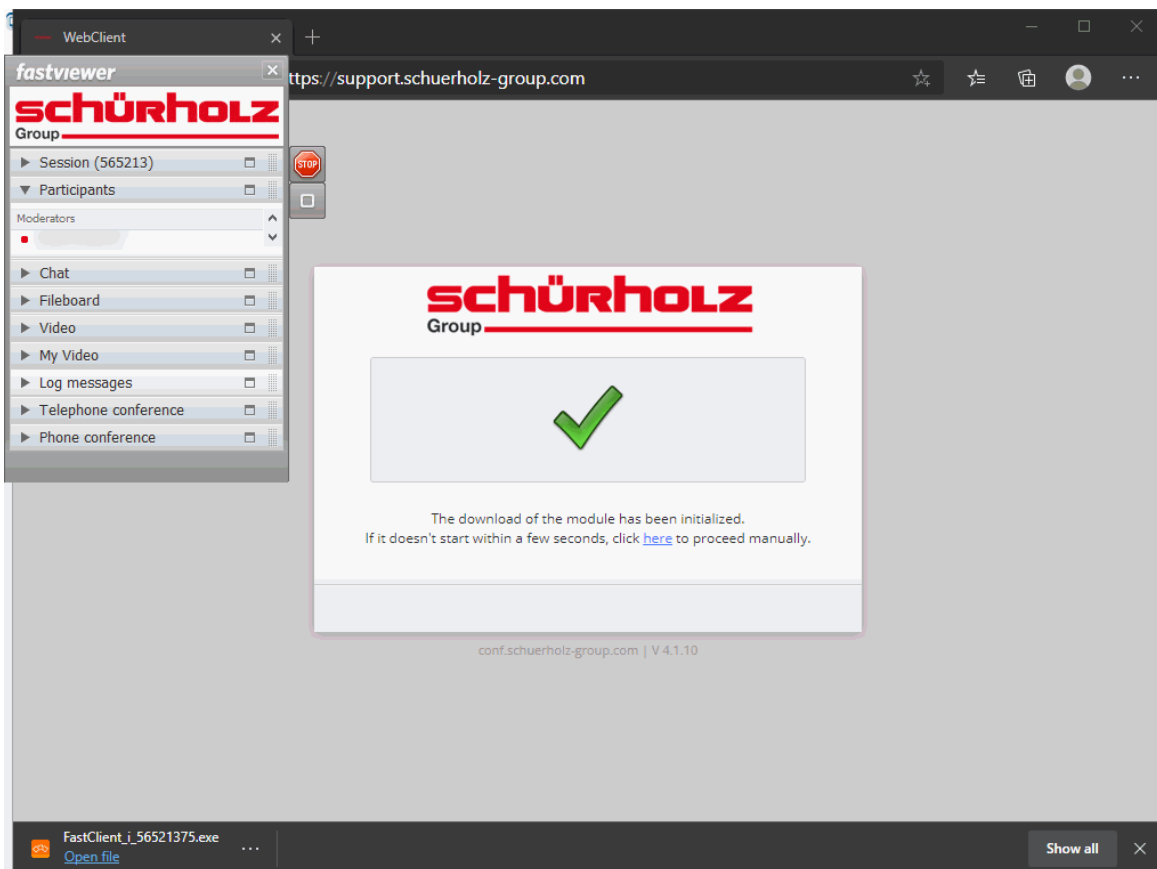

### 1.1.4 Downloading the Windows-Client

The Windows client is downloaded automatically.

(1) Open the downloaded file.

## 1.1.5 Successful connection with the web conference

Once you have started the file, you are successfully connected to the web conference.
